When calculating age-specific rates per 1 000 of the mean population, the mean population for the year of birth should be used

region: Since 1 January 1999, a new regional division has been established. Parts of Södertälje municipality (code 0181) have formed a new municipality called Nykvarn (code 0140).

age: Age refers to age attained by the end of the year, i.e. in principal, an account for the year of birth.

observations: Inmigrations: Migration cannot be added with regard to regions. When, for instance, municipalities are added to metropolitan areas, migration to the region is added to migrations within the region.

observations: Outmigrations: Migration cannot be added with regard to regions. When, for instance, municipalities are added to metropolitan areas, migration from the region is added to migrations within the region.

observations: Immigrations: The figures include persons transferred from the register of people with residence unknown, i.e. persons who have been registered for at least two years under the heading Residence unknown

observations: Emigrations: The figures include persons transferred to the register of people with residence unknown, i.e. persons who have been registered for at least two years under the title Residence unknown

observations: Excess of migration: Excess of migration is the difference between the number of immigration and outmigration.

observations: Excess of Immigration: Excess of immigration is the difference between the number of immigration from abroad (immigrants) and outmigration to abroad (emigrants).

observations: Excess of Immigration: The figures include persons transferred to and from the register of people with residence unknown, i.e. Persons who continuously under two years have been registered under Residence unknown

observations: Internal Inmigrations: Migration cannot be added with regard to regions. When, for instance, municipalities are added to metropolitan areas, migration to the region is added to migrations within the region.

observations: Internal Inmigrations: Internal immigrated means immigrated less immigrants.

observations: Internal Outmigrations: Migration cannot be added with regard to regions. When, for instance, municipalities are added to metropolitan areas, migration from the region is added to migrations within the region.

observations: Internal Outmigrations: Internal outmigrated means outmigrated less emigrants.
