The number of persons who have acquired Swedish citizenship for the years 2000 - 2014 has been revised in 2015. For those years, the calculation was based on previous nationality which resulted in double counting of persons which previously had more than one citizenship.

age: Age refers to age attained by the end of the year, i.e. in principal, an account for the year of birth.

Age refers to age attained by the end of the year, i.e. in principal, an account for the year of birth.
