Population: New figures for population 2012, 2013, 2014, 2015 and 2016. Model for delineation of the dwelling population has been slightly changed, so that there is a minor break in time series before and after 2012. The dwelling population is delineated using Matrikkelen (register for ground properties, addresses and buildings) and the Population register. Variables used are type of building, building status, type of utility unit and whether people are registered living in the utility unit or building. Holiday homes and utility units registered as other than dwelling are included in the population where the Population register state there are people registered on the dwelling address. The population register is also used to overrule other information, i.e. lack of approval certificate if people are registered living at the address. In addition, dwellings are imputed in buildings without utility units if people are registered on the building address.

Year of construction: First year of construction of building. Unknown are most likely buildings constructed between 1900 and 1983

Utility floor space: Figures at building level are no longer used for imputing at dwelling from 2012. Population and Housing 2001 (P&H2001) is still used as source. However, when ID of utility unit is changed, P&H2001 is no longer used. This may lead to an increase in number of unknown.

The figures was corrected 18 June 2020.

region: [https://www.ssb.no/offentlig-sektor/kommunkatalog/endringer-i-de-regionale-inndelingene'](https://www.ssb.no/offentlig-sektor/kommunkatalog/endringer-i-de-regionale-inndelingene) target='footnote'>See list over changes in regional classifications (in Norwegian).

region: 1 January 2020, the municipality 1852 Tjeldsund was moved from Nordland to Troms og Finnmark.

year: 2021: Number of dwellings was corrected 26.04.2022. The correction mostly affects municipality K-1511 Vanylven.
