Please be aware of many municipality changes and border adjustments in the early 1960s, see Endringer i kommuneinndelingen 1951-2008.

See list over changes in regional classifications (in Norwegian).

In-migration: Please note that the region selections Municipalities 2020 aggregated time series, Counties 2020 aggregated time series, Regions, Police districts, Centrality and Economic regions summarize single figures for municipalities or counties. Domestic migrations figures for a larger regional unit are thus not correct, since also migrations within the region are counted.

Emigration: Please note that the region selections Municipalities 2020 aggregated time series, Counties 2020 aggregated time series, Regions, Police districts, Centrality and Economic regions summarize single figures for municipalities or counties. Domestic migrations figures for a larger regional unit are thus not correct, since also migrations within the region are counted.

Population increase:

The population figures in the years 1951, 1956, 1961, 1962 and the years 1966-1970 will not match the population in other tables.
