Population 1 January.

A nuclear family refers to couples (married and in a consensual union) and children below the age of 18, single men and women with children below the age of 18. Persons above the age of 18 who live with their parents are not included in nuclear families. Prior to 1999 a child was defined as a person below the age of 16. The method for estimating the population was revised in March 2024 and the time series updated from 2011 onwards, <https://hagstofas3bucket.hagstofa.is/hagstofan/media/public/2024/fadec11c-1b6e-4a66-92e8-73ec22e1f0c6.pdf> see details in the working paper.

Type of family:

Married couple without children: Including couples in registered partnership.

Married couple with children: Including couples in registered partnership.

Consensual union without children: Including homosexual couples in consensual union.

Consensual union with children: Including homosexual couples in consensual union.
