Income - tax returns is statistics based on individuals tax returns. Everyone is tax reliable from the age of 16 in Iceland.

Total income is the total of income from work, capital income and other income.

Income from work is wage income and other work related income such as car benefits, daily allowance and other benefits, calculated remuneration and income from abroad, other than capital income is calculated as income from work.

Capital income is income from interests, dividend, profit from sales and rental income excluding business. Income from work related business is also included in capital income.

Other income are payments from pension funds, payments from The Social Insurance Administration and other compensations such as unemployment benefits and interest- and child support reliefs. Interest- and child support reliefs are calculated on cash base, on the year they are paid i.e. the year before the income year. Research benefits, scholarships, lottery winnings and some other incomes is also included in other

Distribution of income is published both for total income and income from work. Tax payers are ranked according to income in 10 equally large groups, from those who have the lowest income to the highest one. Deciles show the rate of tax payers who have lower or equal income than the given amount. Along with deciles there are also shown 95% and 99% percentiles. When referring to distribution of income, only those who have income from the relevant source, are included, others have been excluded.

Unit: Mean - conditional: Mean for tax payers with some total annual income

Unit: Number - conditional: Total number of tax payers with some total annual income
