If the parties in a divorce were registered in different regions in Sweden, has the duration of the marriage been taken to the oldest person's region.

For regions where the number of dissolved marriages due to divorces, deaths or both divorces and deaths has been fewer than 20, the average duration is not reported.

Marriages where there is no information on duration is not included in the calculations.

The duration of dissolved partnership is not included in the table.

The entire time series was revised 2019-03-21.
