In 2017, the Regional Reform was adopted in the Norwegian parliament. From 1 January 2020, Norway went from having 18 to 11 counties. The growth rates from 2019 to 2020 in the new counties are calculated in relation to the sum of the old counties that were merged and due to the fact that some municipalities changed their county affiliation, there will be a break in the timeseries for the affected counties.

In November 2022, the national accounts carried out a backward revision in the timeseries where a number of industries were affected. The county figures have been revised back to 2008 as a result of the

2015. Discontinuity in wholesale and retail trade, repair of motor vehicles.

2011. Discontinuity in oil and gas extraction.

2011. Discontinuity in offshore supply.

2011. Discontinuity in ocean transport.

2010. Discontinuity in financial and insurance activities.

Figures with a new list of truncated observations were released 2021.12.03.

: = Confidential. Figures are not published so as to avoid identifying persons or companies.

region

Svalbard is not defined as a county in the legal sense, but in official statistics Svalbard is treated in the same way as the other counties in Norway.
