Courses from the first year of upper secondary education and onwards by students studying in Iceland and domiciled in Iceland.

Enrolment is computed as the proportion of students in the corresponding age group.

Domicile refers to December each year.

The year in the table refers to the first year in the school year. E.g. 2015 refers to the school year 2015-2016.

Year:

1999: This year there are no students younger than 15 years old in the dataset.

2000: One 14 year old student is counted in this category with the 15 year olds.

2001: Two 14 year old students are counted in this category with the 15 year olds.

2002: Three students younger than 15 are counted in this category with the 15 year olds.

2003: This year there are no students younger than 15 years old in the dataset.

2004: This year there are no students younger than 15 years old in the dataset.

2005: This year there are no students younger than 15 years old in the dataset.

2006: One 14 year old student is counted in this category with the 15 year olds.

2007: Two 14 year old students are counted in this category with the 15 year olds.

2008: Two 14 year old students are counted in this category with the 15 year olds.

2009: One 14 year old student is counted in this category with the 15 year olds.

2010: Two 14 year old students are counted in this category with the 15 year olds.

2011: This year there are no students younger than 15 years old in the dataset.

2012: This year there are no students younger than 15 years old in the dataset.

2013: This year there are no students younger than 15 years old in the dataset.

2014: One 14 year old student is counted in this category with the 15 year olds.

2015: Three 14 year old students are counted in this category with the 15 year olds.

2016: One 14 year old student is counted in this category with the 15 year olds.

2017: One 14 year old student is counted in this category with the 15 year olds.

2018: This year there are no students younger than 15 years old in the dataset.

2019: This year there are no students younger than 15 years old in the dataset.

2020: This year there are no students younger than 15 years old in the dataset.
