Data is mainly compiled according to ISCED 1997 (level 1-2, 3-4 and 5-6) and only compiled according to the ISCED 2011 classification (level 1-2, 3-4 and 5-8) for a few countries (DK, AX and IS) and only for a selected number of years. Please find which classifications are used under each country. ISCED: International Standard Classification of Education i.e. United Nation's system of classification of education. Initially adopted by UNESCO in 1976.

Greenland: ISCED 2011. Data on level 1, 2 and 8 are currently not available and thus not in the totals either. The cells for Primary and lower secondary (ISCED 1+2) are marked with double periods (..) = not available. Data not available prior to 2003.

Age at the final exam.

Iceland:

ISCED 1997 from 1998-2009. ISCED 2011 from 2010 and onwards.

ISCED 2011. In Iceland, students in the last grade of lower secondary are counted as ISCED 2 graduates and are all assumed to be 15-19 years old. In addition, graduates from programmes that are not classified as level completion according to ISCED 2011, are classified at a lower level. Data from 2002 to 2013 refer to the calendar year but data before that refer to the school year, e.g. 1998 refers to the school year 1997-1998.
