⁴ Effective with the May 1, 2019 release, estimates of gross domestic product (GDP) by industry include estimates of the licensed and unlicensed economic activities related to cannabis production, distribution and consumption for non-medical and medical use. This is reflected in the introduction of new industries in the agriculture and retail sectors covering licensed and unlicensed activities back to the beginning of the current series in 1997. For more information, please read the article "Integrating the production, distribution and consumption of cannabis in the Canadian national economic accounts".
