Data is based on recommendations from the International Labour Organization (ILO).

Employed: Comprise employees, self-employed persons and assisting spouses. In order to be classified as employed, a person must work, i.e. perform labour against some form of payment for at least one hour during the reference period.

Unemployed: Persons out of work who are available to start working within two weeks and are actively seeking a job.

Not in the labour force: Includes young people still pursuing their education and those engaged in work without compensation as well as the retired and disabled.

Labour force: The sum of employed and unemployed. Figures may not add up because of rounding.

Unemployment rate: Unemployed in percent of the labour force.

Employment rate: Employed in percent of total number of people aged 15-64 (mean or average population during the year).

reporting country:

Norway:

Break in time series 2004, 2005 and 2006 (excluding Total (number of persons)). 1999: Unemployed (number of persons) - Women - 45-54 years is confidential. 2008: Break in time series for Of which: manufacturing. Data points show low reliability. Please refer to Eurostat (tables: lfsa_ugan and lfsa_egan) and related metadata for more information.
