

**B19037C: AGE OF HOUSEHOLDER BY HOUSEHOLD INCOME IN THE PAST 12 MONTHS (IN 2018 INFLATION-ADJUSTED DOLLARS)
(AMERICAN INDIAN AND ALASKA NATIVE ALONE HOUSEHOLDER)**

**Universe: Households with a householder who is American Indian and Alaska Native alone
2018 American Community Survey 1-Year Estimates**

	Alaska	Margin of Error
	Estimate	
Total:	29,780	+/-1,584
Householder under 25 years:	1,085	+/-406
Less than \$10,000	289	+/-295
\$10,000 to \$14,999	21	+/-24
\$15,000 to \$19,999	102	+/-88
\$20,000 to \$24,999	106	+/-121
\$25,000 to \$29,999	41	+/-37
\$30,000 to \$34,999	4	+/-7
\$35,000 to \$39,999	22	+/-25
\$40,000 to \$44,999	41	+/-36
\$45,000 to \$49,999	36	+/-59
\$50,000 to \$59,999	105	+/-77
\$60,000 to \$74,999	105	+/-85
\$75,000 to \$99,999	148	+/-119
\$100,000 to \$124,999	26	+/-32
\$125,000 to \$149,999	12	+/-19
\$150,000 to \$199,999	27	+/-45
\$200,000 or more	0	+/-157
Householder 25 to 44 years:	9,904	+/-1,086
Less than \$10,000	1,086	+/-274
\$10,000 to \$14,999	588	+/-223
\$15,000 to \$19,999	341	+/-175
\$20,000 to \$24,999	382	+/-231
\$25,000 to \$29,999	439	+/-202
\$30,000 to \$34,999	441	+/-137
\$35,000 to \$39,999	675	+/-394
\$40,000 to \$44,999	338	+/-170
\$45,000 to \$49,999	418	+/-208
\$50,000 to \$59,999	892	+/-502
\$60,000 to \$74,999	1,205	+/-524
\$75,000 to \$99,999	1,387	+/-470
\$100,000 to \$124,999	602	+/-492
\$125,000 to \$149,999	354	+/-198
\$150,000 to \$199,999	359	+/-207
\$200,000 or more	397	+/-273
Householder 45 to 64 years:	12,196	+/-1,083
Less than \$10,000	1,386	+/-428
\$10,000 to \$14,999	469	+/-161
\$15,000 to \$19,999	651	+/-256
\$20,000 to \$24,999	423	+/-105
\$25,000 to \$29,999	610	+/-258
\$30,000 to \$34,999	589	+/-220
\$35,000 to \$39,999	715	+/-447
\$40,000 to \$44,999	443	+/-208
\$45,000 to \$49,999	461	+/-166
\$50,000 to \$59,999	869	+/-269
\$60,000 to \$74,999	1,194	+/-347
\$75,000 to \$99,999	1,723	+/-534
\$100,000 to \$124,999	876	+/-249
\$125,000 to \$149,999	453	+/-171
\$150,000 to \$199,999	568	+/-271
\$200,000 or more	766	+/-318
Householder 65 years and over:	6,595	+/-643
Less than \$10,000	105	+/-88
\$10,000 to \$14,999	527	+/-224
\$15,000 to \$19,999	692	+/-191
\$20,000 to \$24,999	596	+/-271
\$25,000 to \$29,999	356	+/-131
\$30,000 to \$34,999	530	+/-149
\$35,000 to \$39,999	541	+/-297
\$40,000 to \$44,999	126	+/-70

\$45,000 to \$49,999	385	+/-243
\$50,000 to \$59,999	686	+/-361
\$60,000 to \$74,999	901	+/-364
\$75,000 to \$99,999	455	+/-165
\$100,000 to \$124,999	267	+/-202
\$125,000 to \$149,999	60	+/-44
\$150,000 to \$199,999	309	+/-233
\$200,000 or more	59	+/-43

Source: U.S. Census Bureau, 2018 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

While the 2018 American Community Survey (ACS) data generally reflect the July 2015 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.

An "****" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An "(X)" means that the estimate is not applicable or not available.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.
