

B27003: PUBLIC HEALTH INSURANCE STATUS BY SEX BY AGE

Universe: Civilian noninstitutionalized population

2018 American Community Survey, 1-Year Estimates

	Alaska	
	Estimate	Margin of Error
Total:	713,033	+/-1,423
Male:	362,282	+/-1,964
Under 6 years:	31,834	+/-1,050
With public coverage	12,780	+/-1,535
No public coverage	19,054	+/-1,397
6 to 18 years:	66,039	+/-1,523
With public coverage	21,044	+/-2,129
No public coverage	44,995	+/-2,254
19 to 25 years:	32,096	+/-1,864
With public coverage	5,748	+/-1,009
No public coverage	26,348	+/-1,842
26 to 34 years:	49,415	+/-2,238
With public coverage	13,242	+/-1,981
No public coverage	36,173	+/-2,632
35 to 44 years:	45,883	+/-1,708
With public coverage	10,518	+/-1,749
No public coverage	35,365	+/-1,915
45 to 54 years:	45,464	+/-1,711
With public coverage	9,754	+/-1,474
No public coverage	35,710	+/-1,837
55 to 64 years:	47,675	+/-1,290
With public coverage	13,483	+/-1,638
No public coverage	34,192	+/-1,574
65 to 74 years:	30,729	+/-1,158
With public coverage	27,916	+/-1,327
No public coverage	2,813	+/-896
75 years and over:	13,147	+/-665
With public coverage	12,970	+/-762
No public coverage	177	+/-207
Female:	350,751	+/-1,720
Under 6 years:	30,980	+/-1,172
With public coverage	12,396	+/-1,500
No public coverage	18,584	+/-1,218
6 to 18 years:	63,735	+/-1,379
With public coverage	20,591	+/-2,117
No public coverage	43,144	+/-2,534
19 to 25 years:	30,447	+/-1,626
With public coverage	7,773	+/-1,210
No public coverage	22,674	+/-1,740
26 to 34 years:	48,553	+/-1,620
With public coverage	13,340	+/-1,696
No public coverage	35,213	+/-1,698
35 to 44 years:	47,424	+/-1,541
With public coverage	7,467	+/-1,281
No public coverage	39,957	+/-1,749
45 to 54 years:	41,880	+/-1,498
With public coverage	7,490	+/-1,298
No public coverage	34,390	+/-1,711
55 to 64 years:	45,210	+/-1,053
With public coverage	9,131	+/-1,037
No public coverage	36,079	+/-1,274
65 to 74 years:	28,250	+/-1,070
With public coverage	26,820	+/-1,156
No public coverage	1,430	+/-544
75 years and over:	14,272	+/-765
With public coverage	14,122	+/-768
No public coverage	150	+/-83

Source: U.S. Census Bureau, 2018 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html> . The health insurance coverage category names were modified in 2010. See https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18 for a list of the insurance type definitions.

Beginning in 2017, selected variable categories were updated, including age-categories, income-to-poverty ratio (IPR) categories, and the age universe for certain employment and education variables. See user note entitled "Health Insurance Table Updates" for further details.

While the 2018 American Community Survey (ACS) data generally reflect the July 2015 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities. Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.

An "****" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An "(X)" means that the estimate is not applicable or not available.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.
