

B25011: TENURE BY HOUSEHOLD TYPE (INCLUDING LIVING ALONE) AND AGE OF HOUSEHOLDER

Universe: Occupied housing units

2018 American Community Survey, 1-Year Estimates

	Alaska	
	Estimate	Margin of Error
Total:	254,551	+/-3,266
Owner occupied:	167,108	+/-3,496
Family households:	120,087	+/-3,182
Married-couple family:	97,455	+/-3,246
Householder 15 to 34 years	11,285	+/-1,751
Householder 35 to 64 years	65,012	+/-2,523
Householder 65 years and over	21,158	+/-1,580
Other family:	22,632	+/-2,285
Male householder, no wife present:	9,748	+/-1,412
Householder 15 to 34 years	1,551	+/-647
Householder 35 to 64 years	5,686	+/-895
Householder 65 years and over	2,511	+/-984
Female householder, no husband present:	12,884	+/-1,458
Householder 15 to 34 years	1,542	+/-546
Householder 35 to 64 years	8,098	+/-1,181
Householder 65 years and over	3,244	+/-712
Nonfamily households:	47,021	+/-2,907
Householder living alone:	36,829	+/-2,658
Householder 15 to 34 years	3,181	+/-764
Householder 35 to 64 years	18,514	+/-1,777
Householder 65 years and over	15,134	+/-1,860
Householder not living alone:	10,192	+/-1,405
Householder 15 to 34 years	2,687	+/-794
Householder 35 to 64 years	4,890	+/-995
Householder 65 years and over	2,615	+/-680
Renter occupied:	87,443	+/-3,493
Family households:	47,440	+/-3,323
Married-couple family:	30,369	+/-2,639
Householder 15 to 34 years	13,520	+/-1,612
Householder 35 to 64 years	14,856	+/-2,105
Householder 65 years and over	1,993	+/-677
Other family:	17,071	+/-1,990
Male householder, no wife present:	5,865	+/-1,236
Householder 15 to 34 years	2,472	+/-781
Householder 35 to 64 years	2,912	+/-849
Householder 65 years and over	481	+/-332
Female householder, no husband present:	11,206	+/-1,547
Householder 15 to 34 years	4,855	+/-1,073
Householder 35 to 64 years	6,079	+/-1,175
Householder 65 years and over	272	+/-201
Nonfamily households:	40,003	+/-2,507
Householder living alone:	29,424	+/-2,354
Householder 15 to 34 years	8,891	+/-1,533
Householder 35 to 64 years	15,049	+/-1,909
Householder 65 years and over	5,484	+/-1,017
Householder not living alone:	10,579	+/-1,669
Householder 15 to 34 years	7,754	+/-1,329
Householder 35 to 64 years	2,544	+/-812
Householder 65 years and over	281	+/-221

Source: U.S. Census Bureau, 2018 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

While the 2018 American Community Survey (ACS) data generally reflect the July 2015 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.

An "****" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An "(X)" means that the estimate is not applicable or not available.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.
