

B24032: SEX BY INDUSTRY AND MEDIAN EARNINGS IN THE PAST 12 MONTHS (IN 2018 INFLATION-ADJUSTED DOLLARS) FOR THE CIVILIAN EMPLOYED POPULATION 16 YEARS AND OVER

**Universe: Civilian employed population 16 years and over with earnings
2018 American Community Survey, 1-Year Estimates**

	Alaska	
	Estimate	Margin of Error
Male:	51,257	+/-863
Agriculture, forestry, fishing and hunting, and mining:	101,001	+/-7,580
Agriculture, forestry, fishing and hunting	55,039	+/-8,888
Mining, quarrying, and oil and gas extraction	118,369	+/-17,825
Construction	55,333	+/-5,994
Manufacturing	45,520	+/-7,959
Wholesale trade	49,888	+/-9,127
Retail trade	30,650	+/-2,495
Transportation and warehousing, and utilities:	53,993	+/-10,103
Transportation and warehousing	51,620	+/-6,665
Utilities	82,324	+/-28,225
Information	66,080	+/-11,285
Finance and insurance, and real estate, and rental and leasing:	57,578	+/-13,573
Finance and insurance	82,086	+/-58,371
Real estate and rental and leasing	38,436	+/-14,291
Professional, scientific, and management, and administrative, and waste management services:	65,768	+/-13,098
Professional, scientific, and technical services	81,960	+/-9,176
Management of companies and enterprises	71,071	+/-39,444
Administrative and support and waste management services	40,650	+/-9,527
Educational services, and health care and social assistance:	56,597	+/-9,232
Educational services	64,507	+/-6,864
Health care and social assistance	50,300	+/-8,286
Arts, entertainment, and recreation, and accommodation and food services:	21,922	+/-1,886
Arts, entertainment, and recreation	21,144	+/-18,942
Accommodation and food services	22,030	+/-1,724
Other services, except public administration	43,641	+/-5,673
Public administration	63,757	+/-3,503
Female:	36,999	+/-1,284
Agriculture, forestry, fishing and hunting, and mining:	61,841	+/-13,894
Agriculture, forestry, fishing and hunting	32,030	+/-9,781
Mining, quarrying, and oil and gas extraction	82,835	+/-27,492
Construction	52,368	+/-7,414
Manufacturing	24,980	+/-7,090
Wholesale trade	53,733	+/-23,370
Retail trade	20,536	+/-5,971
Transportation and warehousing, and utilities:	47,270	+/-4,343
Transportation and warehousing	45,352	+/-7,244
Utilities	59,342	+/-13,709
Information	43,265	+/-11,392

Educational services	45,266	+/-4,698
Health care and social assistance	40,903	+/-2,486
Arts, entertainment, and recreation, and accommodation and food services:	19,500	+/-3,210
Arts, entertainment, and recreation	22,053	+/-6,059
Accommodation and food services	18,467	+/-3,611
Other services, except public administration	34,913	+/-7,463
Public administration	51,364	+/-1,305

Source: U.S. Census Bureau, 2018 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2017. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

While the 2018 American Community Survey (ACS) data generally reflect the July 2015 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas, in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.

An "***" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An "(X)" means that the estimate is not applicable or not available.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.
