

B23002C: SEX BY AGE BY EMPLOYMENT STATUS FOR THE POPULATION 16 YEARS AND OVER (AMERICAN INDIAN AND ALASKA NATIVE ALONE)

**Universe: American Indian and Alaska Native alone population 16 years and over
2019 American Community Survey, 1-Year Estimates**

	Alaska	Margin of Error
	Estimate	
Total:	81 566	±2,732
Male:	39 450	±1,751
16 to 19 years:	3 275	±583
In labor force:	769	±285
In Armed Forces	12	±21
Civilian:	757	±287
Employed	633	±284
Unemployed	124	±72
Not in labor force	2 506	±525
20 to 24 years:	4 522	±969
In labor force:	3 040	±605
In Armed Forces	9	±14
Civilian:	3 031	±605
Employed	2 302	±634
Unemployed	729	±436
Not in labor force	1 482	±701
25 to 54 years:	21 470	±1,156
In labor force:	14 717	±1,070
In Armed Forces	131	±153
Civilian:	14 586	±1,089
Employed	12 091	±1,140
Unemployed	2 495	±624
Not in labor force	6 753	±946
55 to 64 years:	6 336	±653
In labor force:	3 483	±737
In Armed Forces	22	±36
Civilian:	3 461	±738
Employed	3 015	±728
Unemployed	446	±143
Not in labor force	2 853	±682
65 to 69 years:	1 486	±324
In labor force:	481	±269
Employed	471	±268
Unemployed	10	±18
Not in labor force	1 005	±258
70 years and over:	2 361	±454
In labor force:	367	±267
Employed	279	±182
Unemployed	88	±159
Not in labor force	1 994	±357
Female:	42 116	±1,634
16 to 19 years:	3 714	±851
In labor force:	1 328	±487
In Armed Forces	0	±163
Civilian:	1 328	±487
Employed	954	±443
Unemployed	374	±282
Not in labor force	2 386	±531
20 to 24 years:	3 827	±715
In labor force:	2 641	±659
In Armed Forces	0	±163
Civilian:	2 641	±659
Employed	2 424	±647
Unemployed	217	±96
Not in labor force	1 186	±417
25 to 54 years:	22 270	±1,338
In labor force:	14 183	±1,563
In Armed Forces	0	±163
Civilian:	14 183	±1,563
Employed	12 057	±1,366
Unemployed	2 126	±813

Not in labor force	8 087	±1,523
55 to 64 years:	6 664	±592
In labor force:	3 537	±692
In Armed Forces	0	±163
Civilian:	3 537	±692
Employed	3 408	±691
Unemployed	129	±84
Not in labor force	3 127	±671
65 to 69 years:	1 916	±362
In labor force:	439	±231
Employed	353	±212
Unemployed	86	±109
Not in labor force	1 477	±364
70 years and over:	3 725	±491
In labor force:	102	±72
Employed	102	±72
Unemployed	0	±163
Not in labor force	3 623	±505

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Source: U.S. Census Bureau, 2019 American Community Survey 1-Year Estimates

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance. Armed Forces data are not shown for the population 65 years and over.

The 2019 American Community Survey (ACS) data generally reflect the September 2018 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas. In certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols: * An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

* An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

* An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

* An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.

* An "****" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

* An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

* An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

* An "(X)" means that the estimate is not applicable or not available.
