

S2413: INDUSTRY BY SEX AND MEDIAN EARNINGS IN THE PAST 12 MONTHS (IN 2019 INFLATION-ADJUSTED DOLLARS) FOR THE CIVILIAN EMPLOYED POPULATION 16 YEARS AND OVER

Universe: None

2019 American Community Survey, 1-Year Estimates

Label	Alaska							
	Median earnings (dollars)		Median earnings (dollars) for male		Median earnings (dollars) for female		Women's earnings as a percentage of men's earning	
	Estimate	Margin of Error	Estimate	Margin of Error	Estimate	Margin of Error	Estimate	Margin of Error
Civilian employed population 16 years and over with earnings	45 015	±3,086	50 866	±1,226	37 032	±1,486	72.8%	±3.6
Agriculture, forestry, fishing and hunting, and mining:	75 239	±7,789	76 821	±7,667	68 100	±11,024	88.6%	±16.6
Agriculture, forestry, fishing and hunting	50 374	±5,673	59 375	±19,160	37 083	±24,419	62.5%	±53.7
Mining, quarrying, and oil and gas extraction	82 022	±15,003	82 106	±14,394	81 445	±51,074	99.2%	±60.4
Construction	70 256	±5,598	71 098	±2,507	39 394	±25,883	55.4%	±36.7
Manufacturing	38 369	±9,685	39 045	±15,175	33 988	±22,213	87.0%	±69.0
Wholesale trade	47 026	±7,892	50 803	±10,938	41 893	±17,522	82.5%	±39.8
Retail trade	26 104	±2,229	31 281	±2,493	21 575	±1,560	69.0%	±7.2
Transportation and warehousing, and utilities:	52 320	±4,993	60 947	±5,472	40 567	±11,817	66.6%	±21.1
Transportation and warehousing	48 819	±5,152	57 223	±7,858	30 963	±10,667	54.1%	±20.7
Utilities	71 473	±2,874	81 623	±14,783	69 051	±10,231	84.6%	±19.7
Information	57 551	±10,960	60 098	±15,309	57 270	±14,064	95.3%	±32.7
Finance and insurance, and real estate and rental and leasing:	49 933	±7,013	55 563	±17,718	46 756	±4,490	84.1%	±28.8
Finance and insurance	51 301	±11,254	70 900	±5,401	47 079	±6,306	66.4%	±11.7
Real estate and rental and leasing	47 409	±10,686	49 652	±16,500	42 294	±16,754	85.2%	±44.7
Professional, scientific, and management, and administrative and waste management services:	51 574	±2,968	60 715	±8,418	46 283	±7,512	76.2%	±16.8
Professional, scientific, and technical services	61 284	±7,508	77 843	±14,414	51 250	±5,052	65.8%	±16.3
Management of companies and enterprises	44 306	±33,278	44 722	±77,208	42 405	±36,617	94.8%	±2,880.4
Administrative and support and waste management services	41 757	±9,457	50 251	±6,107	31 062	±10,174	61.8%	±21.3
Educational services, and health care and social assistance:	45 180	±4,077	48 343	±4,226	42 132	±4,488	87.2%	±13.0
Educational services	41 840	±5,886	55 040	±15,057	40 235	±4,446	73.1%	±23.4
Health care and social assistance	45 642	±3,150	47 095	±5,215	45 185	±5,088	95.9%	±15.2
Arts, entertainment, and recreation, and accommodation and food services:	20 415	±1,693	22 410	±3,178	17 035	±3,891	76.0%	±21.3
Arts, entertainment, and recreation	25 852	±10,917	31 698	±15,084	16 877	±13,242	53.2%	±52.4
Accommodation and food services	19 412	±1,727	20 871	±3,865	17 123	±4,413	82.0%	±29.3
Other services, except public administration	36 447	±4,281	47 116	±5,966	23 795	±6,234	50.5%	±15.6
Public administration	57 490	±7,469	65 212	±3,542	50 315	±3,372	77.2%	±5.8

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Source: U.S. Census Bureau, 2019 American Community Survey 1-Year Estimates

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

Industry titles and their 4-digit codes are based on the 2017 North American Industry Classification System. The industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

The 2019 American Community Survey (ACS) data generally reflect the September 2018 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas. In certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols: * An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

* An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

* An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.

* An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.

* An "***" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

* An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

* An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

* An "(X)" means that the estimate is not applicable or not available.
