To avoid identification, some persons are not linked at the level below the municipal level. These persons have been assigned to a DeSO within their municipality. Incomes in fixed prices, referring to last year of data.

Net income :

Net income is the sum of all taxable and non-taxable income less taxes and other negative transfers (such as repaid study loans).

This table contains persons 20 years and older, registered in Sweden 31 December each year.

The nationwide divisions DeSO (Demographic Statistical Areas) and RegSO (Regional Statistical Areas) apply from 1 January 2018 and 1 June 2020, respectively, and follow the county and municipal borders. RegSO has been created by aggregating DeSO. Further information on DeSO and RegSO can be found on Statistics Sweden's website.

Between 2014 and 2015, there is a change in the method used to connect people to a specific DeSO. Before 2015, property coordinates were used, while address coordinates is used in 2015 and subsequent years. This means that there will be a minor break in the statistics on DeSO and RegSO between 2014 and 2015.

Update 2021-07-02:

Two RegSOs (regional statistical areas) have new designations. RegSO Dala-Järna, with RegSO code 2021R001, has changed its designation to Vansbro västra landsbygd.

RegSO Vansbro västra landsbygd, with RegSO code 2021R003 has changed its designation to Dala-Järna.

Income from wages, salaries and pensions from the Nordic countries is included for people who are registered in Sweden. As of the publication of the income year 2020, the statistics for the years 2011-2019 have been revised.

observations: Share with income, percent: Share with income refers to the share of people with a value greater than zero.

Latest update: 20220126 08:00
