A person is defined as a child, regardless of age, when he/she is included in a household together with at least one of his/her parents and the child does not have any children or a partner in the same household. A parent-child relationship is created if a person is a biological parent, adoptive parent, guardian or "Other person" to someone in the household.

Statistics are adjusted to avoid identifying individuals in cells with small values. Data in other cells has been changed so that totals remain unchanged, but in some cases this has not been possible.

To avoid identification, some persons are not linked at the level below the municipal level. These persons have been assigned to a DeSO within their municipality.

Update 2021-07-02:
