These data are compiled from a database comprising regular students enrolled at the first and second stage of tertiary education. Each student is counted once. Students are counted and assigned to school level in accordance with ISCED97 (International Standard Classification of Education 1997).

When data were updated in July 2024, the reference day for data from the National Population Register was changed from December to November 1st, back to the year 2011. With this change the values for sex may have changed from previously published data. In addition, changes in the classification of programmes were updated back to the year 2007.

The year in the table refers to the first year in the school year. E.g. 2015 refers to the school year 2015-2016.
