Abbreviation notes:

List of abbreviations and acronyms found within various Census products. (<https://www12.statcan.gc.ca/census-recensement/2021/ref/symb-ab-acr-eng.cfm>)

Geography name: Division No. 11

Geographic area type: Census division

Geographic area type abbreviation: CDR

Geographic level: Census division

Province or territory abbreviation: N.L.

Dissemination Geography Unique Identifier (DGUID): 2021A00031011

Alternative geographic code: 1011

Province or territory geocode: 10

Short-form total non-response rate: 22.3

Data quality flag: 02020

Data quality note: ..."

Footnotes:

[1] Gender

Gender refers to an individual's personal and social identity as a man, woman or non-binary person (a person who is not exclusively a man or a woman). Gender includes the following concepts: gender identity, which refers to the gender that a person feels internally and individually

[2] Given that the non-binary population is small, data aggregation to a two-category gender variable is sometimes necessary to protect the confidentiality of responses provided. In these cases, individuals in the category “non-binary persons” are distributed into the other two gender categories and are denoted by the “+” symbol.

[3] Mother tongue

Mother tongue refers to the first language learned at home in childhood and still understood by the person at the time the data was collected. If the person no longer understands the first language learned, the mother tongue is the second language learned. For a person who learned more than one language at the same time in early childhood, the mother tongue is the language this person spoke most often at home before starting school. The person has more than one mother tongue only if they learned these languages at the same time, and still understands them. For a child who has not yet learned to speak, the mother tongue is the language spoken most often to this child at home. A child who has not yet learned to speak has more than one mother tongue only if these languages are spoken to them equally often so that the child learns these languages at the same time.

[4] Age

'Age' refers to the age of a person (or subject) of interest at last birthday (or relative to a specified, well-defined reference date).

[5] For more information on language variables, including information on their classifications, the questions from which they are derived, data quality and their comparability with other sources of data, please refer to the Languages Reference Guide, Census of Population, 2021.

[6] Users should be aware that estimates associated with Indigenous languages are more affected than most by the incomplete enumeration of certain reserves and settlements in the Census of Population.
