Notes

Fra januar 2023 er det samme datasett (kube) som publiseres i Kommunehelse og Norgeshelse. Dermed vil også Norgeshelse ha data for kommuner og bydeler og helseregioner er tatt ut.

Source

Statistics Norway (SSB)

Collection

Data registreres av SSB.

SSBs "System for persondata" (SFP) er en utvidelse av den registerbaserte sysselsettingsstatistikken, som i tillegg til å gi opplysninger om arbeidsforhold, gir opplysninger

om utdanning, NAV-tiltak og mottak av ulike offentlige ytelser.

Interpretation and sources of error

Indikatoren presentert her viser de som står utenfor arbeid, utdanning og opplæring (arbeidsmarkedtiltak). Dette er personer som verken er sysselsatte (lønnstakere eller selvstendige) eller i formell utdanning.

When numbers are missing

Statistics based on fewer than 6 cases is hidden for reasons of personal data protection. This criterion concerns the sum of cases in the period for which an average has been constructed. Figures are also hidden when the population group in which the cases originate, is smaller than 10 persons.

If more than 20 per cent of the cases in a time series are hidden due to the abovementioned reasons, the complete time series is hidden to avoid giving a skewed impression.

The complete time series is also hidden if more than 50 per cent of the values in the series are based on 6 or fewer cases.

Time periods

2008-2022

Geographical level

Norway, Counties, municipalities and city districts.

Gender

Both genders, men and women

Age groups

15-29 years, 15-24 years, 24-29 years, 15-19 years and 20-24 years.

Frequency of updates

Annually

Last updated
