

B17010C: POVERTY STATUS IN THE PAST 12 MONTHS OF FAMILIES BY FAMILY TYPE BY PRESENCE OF RELATED CHILDREN UNDER 18 YEARS BY AGE OF RELATED CHILDREN (AMERICAN INDIAN AND ALASKA NATIVE ALONE)

Universe: Families with a householder who is American Indian and Alaska Native alone

2021 American Community Survey, 1-Year Estimates Detailed Tables

	Alaska	
	Estimate	Margin of Error
Total:	20,229	±1,391
Income in the past 12 months below poverty level:	4,014	±743
Married-couple family:	1,393	±370
With related children of the householder under 18 years:	970	±286
Under 5 years only	58	±70
Under 5 years and 5 to 17 years	418	±196
5 to 17 years only	494	±203
No related children of the householder under 18 years	423	±209
Other family:	2,621	±679
Male householder, no spouse present:	834	±395
With related children of the householder under 18 years:	524	±253
Under 5 years only	216	±145
Under 5 years and 5 to 17 years	38	±40
5 to 17 years only	270	±193
No related children of the householder under 18 years	310	±275
Female householder, no spouse present:	1,787	±574
With related children of the householder under 18 years:	1,184	±332
Under 5 years only	345	±230
Under 5 years and 5 to 17 years	408	±192
5 to 17 years only	431	±168
No related children of the householder under 18 years	603	±455
Income in the past 12 months at or above poverty level:	16,215	±1,403
Married-couple family:	9,759	±1,280
With related children of the householder under 18 years:	5,444	±1,012
Under 5 years only	653	±329
Under 5 years and 5 to 17 years	1,381	±416
5 to 17 years only	3,410	±886
No related children of the householder under 18 years	4,315	±858
Other family:	6,456	±837
Male householder, no spouse present:	1,640	±403
With related children of the householder under 18 years:	1,041	±321
Under 5 years only	153	±122
Under 5 years and 5 to 17 years	363	±204
5 to 17 years only	525	±210
No related children of the householder under 18 years	599	±288
Female householder, no spouse present:	4,816	±771
With related children of the householder under 18 years:	3,554	±712
Under 5 years only	451	±360
Under 5 years and 5 to 17 years	1,152	±519
5 to 17 years only	1,951	±501
No related children of the householder under 18 years	1,262	±378

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section. Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Source: U.S. Census Bureau, 2021 American Community Survey 1-Year Estimates

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

The categories for relationship to householder were revised in 2019. For more information see Revisions to the Relationship to Household item.

The Hispanic origin and race codes were updated in 2020. For more information on the Hispanic origin and race code changes, please visit the American Community Survey Technical Documentation website.

The 2021 American Community Survey (ACS) data generally reflect the March 2020 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas. In certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

- : The estimate could not be computed because there were an insufficient number of sample observations. For a ratio of medians estimate, one or both of the median estimates falls in the lowest interval or highest interval of an open-ended distribution. For a 5-year median estimate, the margin of error associated with a median was larger than the median itself.

N : The estimate or margin of error cannot be displayed because there were an insufficient number of sample cases in the selected geographic area.

(X) : The estimate or margin of error is not applicable or not available.

median- : The median falls in the lowest interval of an open-ended distribution (for example "2,500-").

median+ : The median falls in the highest interval of an open-ended distribution (for example "250,000+").

** : The margin of error could not be computed because there were an insufficient number of sample observations.

*** : The margin of error could not be computed because the median falls in the lowest interval or highest interval of an open-ended distribution.

***** : A margin of error is not appropriate because the corresponding estimate is controlled to an independent population or housing estimate. Effectively, the corresponding estimate has no sampling error and the margin of error may be treated as zero.
