The occupational categories are based on Eurostat's classification of health personnel employed in hospital to ensure the comparability of the figures. Eurostat's classification is based on selected categories from the International Classification of Occupations (ISCO-08) developed by the International Labour Organization (ILO) in 2008.

Many employees (particularly physicians) employed in hospitals in the Faroe Islands are consultants from abroad. Information on the FTE cannot be obtained for these employees and therefore it has been necessary to convert their compensation to FTEs.

Physicians: includes ISCO-category '221 Medical doctors' and subcategories '2111 Generalist medical practitioners' and '2212 Specialist medical Professional nurses and midwives: includes ISCO-category '222 Nursing and midwifery professionals' and '3222 Midwifery associate professionals'. Currently, there is no record of any individuals registered under the category '3222 Midwifery associate professionals' in the Faroe Islands.

Associate professional nurses: includes ISCO-category '3221 Nursing associate professionals'. There are no individuals currently registered under this occupational category in the Faroe Islands.

Health care assistants: includes ISCO-category '5321 Health care assistants' □

Other health service providers: includes occupations such as dentists, pharmacists, physiotherapists, psychologists, dieticians, audiologists and speech therapists, laboratory assistants and other health professionals and associate professionals.

Other staff: include other employees not elsewhere classified.
