B25011: TENURE BY HOUSEHOLD TYPE (INCLUDING LIVING ALONE) AND AGE OF HOUSEHOLDER
Universe: Occupied housing units
2021 American Community Survey, 1-Year Estimates Detailed Tables

	Alaska	
	Estimate	Margin of Error
Total:	271,311	±3,313
Owner occupied:	181,145	±3,790
Family households:	127,573	±4,062
Married-couple family:	102,609	±4,216
Householder 15 to 34 years	10,800	±1,614
Householder 35 to 64 years	66,613	±3,289
Householder 65 years and over	25,196	±1,699
Other family:	24,964	±1,962
Male householder, no spouse present:	9,281	±1,501
Householder 15 to 34 years	2,066	±761
Householder 35 to 64 years	5,021	±1,172
Householder 65 years and over	2,194	±715
Female householder, no spouse present:	15,683	±1,727
Householder 15 to 34 years	2,571	±882
Householder 35 to 64 years	9,806	±1,554
Householder 65 years and over	3,306	±745
Nonfamily households:	53,572	±3,216
Householder living alone:	42,474	±2,932
Householder 15 to 34 years	4,728	±1,369
Householder 35 to 64 years	21,565	±1,993
Householder 65 years and over	16,181	±1,646
Householder not living alone:	11,098	±1,565
Householder 15 to 34 years	2,167	±674
Householder 35 to 64 years	6,557	±1,200
Householder 65 years and over	2,374	±763
Renter occupied:	90,166	±3,901
Family households:	44,803	±3,118
Married-couple family:	27,328	±2,478
Householder 15 to 34 years	14,345	±1,856
Householder 35 to 64 years	11,417	±1,554
Householder 65 years and over	1,566	±547
Other family:	17,475	±2,020
Male householder, no spouse present:	5,643	±1,191
Householder 15 to 34 years	2,321	±794
Householder 35 to 64 years	2,876	±814
Householder 65 years and over	446	±313
Female householder, no spouse present:	11,832	±1,778
Householder 15 to 34 years	4,339	±936
Householder 35 to 64 years	6,892	±1,344
Householder 65 years and over	601	±273
Nonfamily households:	45,363	±3,312
Householder living alone:	35,207	±3,016
Householder 15 to 34 years	12,174	±2,293
Householder 35 to 64 years	15,496	±1,998
Householder 65 years and over	7,537	±1,624
Householder not living alone:	10,156	±1,509
Householder 15 to 34 years	7,428	±1,403
Householder 35 to 64 years	2,663	±805
Householder 65 years and over	65	±93

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section. Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Source: U.S. Census Bureau, 2021 American Community Survey 1-Year Estimates

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

The categories for relationship to householder were revised in 2019. For more information see Revisions to the Relationship to Household item.

The 2021 American Community Survey (ACS) data generally reflect the March 2020 Office of Management and Budget (OMB) delineations of metropolitan and micropolitan statistical areas. In certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB delineations due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

- : The estimate could not be computed because there were an insufficient number of sample observations. For a ratio of medians estimate, one or both of the median estimates falls in the lowest interval or highest interval of an open-ended distribution. For a 5-year median estimate, the margin of error associated with a median was larger than the median itself.

N : The estimate or margin of error cannot be displayed because there were an insufficient number of sample cases in the selected geographic area.

(X) : The estimate or margin of error is not applicable or not available.

median- : The median falls in the lowest interval of an open-ended distribution (for example "2,500-")

median+ : The median falls in the highest interval of an open-ended distribution (for example "250,000+").

** : The margin of error could not be computed because there were an insufficient number of sample observations.

*** : The margin of error could not be computed because the median falls in the lowest interval or highest interval of an open-ended distribution.

***** : A margin of error is not appropriate because the corresponding estimate is controlled to an independent population or housing estimate. Effectively, the corresponding estimate has no sampling error and the margin of error may be treated as zero.
