Due to methodological changes there is a structural break in the time series 1980, 1990 and 1997 according to the output approach. These years are therefore counted twice and shown both before and after the change. With the implementation of the new standards ESA2010 in September 2014 the time series was revised back to 1997.

Year:

2021: Preliminary data.

2022: Preliminary data.

Category:

10. Statistical discrepancy: The difference between output and expenditure approach of the gross domestic product.

Latest update: 20230907 13:00

Units: Million ISK/percent

Reference period: 1973-2022

Internal reference code: THJ01501
