

**H014. TENURE BY HOUSEHOLD SIZE - Universe: OCCUPIED HOUSING UNITS**

Data Set: [2001 Supplementary Survey Summary Tables](#)

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska	Estimate	Lower Bound	Upper Bound
Total:	220,110	217,508	222,712
Owner occupied:	139,461	135,254	143,669
1-person household	26,663	24,917	28,409
2-person household	45,164	43,044	47,284
3-person household	25,902	24,074	27,730
4-person household	22,873	19,928	25,818
5-person household	11,018	9,589	12,447
6-person household	4,740	3,677	5,803
7-or-more person household	3,101	2,494	3,708
Renter occupied:	80,649	77,210	84,088
1-person household	24,846	21,069	28,623
2-person household	21,976	19,907	24,045
3-person household	13,790	11,820	15,760
4-person household	10,549	8,072	13,026
5-person household	6,185	4,302	8,068
6-person household	1,876	1,145	2,607
7-or-more person household	1,427	770	2,084

**Notes**

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '\*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '\*\*' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '\*\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '\*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
