Reference year: 2005. From 1990 onwards volume changes are now based on annual chain linking. Prior to that volume changes were based on fixed base years. The base year was 1980 for the period 1977-1990. Due to chain linking the sum of the components does not necessarily add up to totals. With the implementation of the new standards ESA2010 in September 2014 the time series was revised back to 1997, causing a structural break in the time series between 1996 and 1997.
