	2007	68334	69793
	2008	68558	69879
	2009	68739	69947
2010	62006	64286	
2011	62070	64337	
2012	62112	64398	

Since 2010 the projected dwelling stock is based upon the annual Register of Real Estate Tax Assessments, updated yearly with reported new construction, conversion and demolition. The dwelling stock for 2001 – 2009 is based upon the Census of Population and Housing in 1990 and updated with yearly new construction, conversion and demolition of multi-dwelling buildings. Changes which are not considered 1991 -2009 are when dwellings for seasonal and secondary use have been transformed to permanent use and vice versa. Most demolitions of one- and two-dwelling buildings are also not considered.
