

B17016. POVERTY STATUS IN THE PAST 12 MONTHS OF FAMILIES BY FAMILY TYPE BY WORK EXPERIENCE OF HOUSEHOLDER AND SPOUSE - Universe: FAMILIES

Data Set: [2004 American Community Survey](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[« hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	156,309	152,873	159,745
Income in the past 12 months below poverty level:	8,624	7,547	9,701
Married-couple family:	3,461	2,304	4,618
Householder worked full-time, year-round in the past 12 months:	428	139	717
Spouse worked full-time, year-round in the past 12 months	0	0	274
Spouse worked part-time or part-year in the past 12 months	0	0	274
Spouse did not work in the past 12 months	428	139	717
Householder worked part-time or part-year in the past 12 months:	1,433	608	2,258
Spouse worked full-time, year-round in the past 12 months	35	0	96
Spouse worked part-time or part-year in the past 12 months	846	80	1,612
Spouse did not work in the past 12 months	552	279	825
Householder did not work in the past 12 months:	1,600	992	2,208
Spouse worked full-time, year-round in the past 12 months	121	0	244
Spouse worked part-time or part-year in the past 12 months	131	0	286
Spouse did not work in the past 12 months	1,348	761	1,935
Other family:	5,163	4,070	6,256
Male householder, no wife present:	1,317	466	2,168
Householder worked full-time, year-round in the past 12 months	48	0	129
Householder worked part-time or part-year in the past 12 months	1,011	220	1,802
Householder did not work in the past 12 months	258	27	489
Female householder, no husband present:	3,846	3,065	4,627
Householder worked full-time, year-round in the past 12 months	357	16	698
Householder worked part-time or part-year in the past 12 months	2,267	1,581	2,953
Householder did not work in the past 12 months	1,222	672	1,772
Income in the past 12 months at or above poverty level:	147,685	144,168	151,202
Married-couple family:	115,751	111,914	119,588
Householder worked full-time, year-round in the past 12 months:	61,709	57,024	66,394
Spouse worked full-time, year-round in the past 12 months	29,223	26,040	32,406
Spouse worked part-time or part-year in the past 12 months	21,021	18,997	23,045
Spouse did not work in the past 12 months	11,465	9,449	13,481
Householder worked part-time or part-year in the past 12 months:	35,704	32,745	38,663
Spouse worked full-time, year-round in the past 12 months	12,275	10,546	14,004
Spouse worked part-time or part-year in the past 12 months	16,733	14,219	19,247
Spouse did not work in the past 12 months	6,696	5,864	7,528
Householder did not work in the past 12 months:	18,338	16,762	19,914
Spouse worked full-time, year-round in the past 12 months	4,751	3,124	6,378
Spouse worked part-time or part-year in the past 12 months	3,944	3,170	4,718
Spouse did not work in the past 12 months	9,643	8,256	11,030
Other family:	31,934	29,456	34,412
Male householder, no wife present:	12,111	10,753	13,469
Householder worked full-time, year-round in the past 12 months	6,796	5,576	8,016
Householder worked part-time or part-year in the past 12 months	4,287	3,233	5,341
Householder did not work in the past 12 months	1,028	397	1,659
Female householder, no husband present:	19,823	17,904	21,742
Householder worked full-time, year-round in the past 12 months	9,883	8,423	11,343
Householder worked part-time or part-year in the past 12 months	6,007	4,154	7,860
Householder did not work in the past 12 months	3,933	2,715	5,151

Source: U.S. Census Bureau, 2004 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a confidence interval. The interval shown here is a 90 percent confidence interval. The stated range can be interpreted roughly as providing a 90 percent probability that the interval defined by the lower and upper bounds contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

The number of householders does not necessarily equal the number of households because of differences in the weighting schemes for the population and occupied housing units.

The universe - families - includes those householders and spouses who were 15 years old and over at the time of the interview. Labor force information was not collected for people under 16 years of age. Therefore, people who were 15 years old at the time of the interview are treated as "did not work in the past 12 months."

Explanation of Symbols:

1. An "!" entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An "*" entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An "-" entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An "****" entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An "*****" entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
