

B17004. POVERTY STATUS IN THE PAST 12 MONTHS OF INDIVIDUALS BY SEX BY WORK EXPERIENCE - Universe: POPULATION 16 YEARS AND OVER FOR WHOM POVERTY STATUS IS DETERMINED

Data Set: [2004 American Community Survey](#)

Survey: American Community Survey

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

[< hide upper and lower bounds](#)

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	471,636	468,546	474,726
Income in the past 12 months below poverty level:	34,341	31,533	37,149
Male:	15,962	14,251	17,673
Worked full time, year-round	931	430	1,432
Worked part-time or part -year	8,745	7,141	10,349
Did not work	6,286	5,051	7,521
Female:	18,379	16,272	20,486
Worked full time, year-round	881	360	1,402
Worked part-time or part -year	8,963	6,771	11,155
Did not work	8,535	7,219	9,851
Income in the past 12 months at or above poverty level:	437,295	433,687	440,903
Male:	221,050	218,736	223,364
Worked full time, year-round	106,269	100,543	111,995
Worked part-time or part -year	81,156	74,942	87,370
Did not work	33,625	31,604	35,646
Female:	216,245	213,268	219,222
Worked full time, year-round	76,574	73,344	79,804
Worked part-time or part -year	88,777	82,536	95,018
Did not work	50,894	47,601	54,187

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a confidence interval. The interval shown here is a 90 percent confidence interval. The stated range can be interpreted roughly as providing a 90 percent probability that the interval defined by the lower and upper bounds contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Explanation of Symbols:

1. An '**' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
