

[B23003. PRESENCE OF OWN CHILDREN UNDER 18 YEARS BY AGE OF OWN CHILDREN UNDER 18 YEARS BY EMPLOYMENT STATUS FOR FEMALES 16 YEARS AND OVER - Universe: FEMALES 16 YEARS AND OVER](#)

Data Set: [2004 American Community Survey](#)

Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	234,624	231,001	238,247
With own children under 18 years:	74,831	72,056	77,606
Under 6 years only:	15,208	12,542	17,874
In labor force:	10,101	7,757	12,445
In Armed Forces	152	19	285
Civilian:	9,949	7,567	12,331
Employed	9,542	7,225	11,859
Unemployed	407	102	712
Not in labor force	5,107	4,151	6,063
Under 6 years and 6 to 17 years:	14,172	12,676	15,668
In labor force:	9,578	7,686	11,470
In Armed Forces	169	30	308
Civilian:	9,409	7,525	11,293
Employed	8,148	6,282	10,014
Unemployed	1,261	672	1,850
Not in labor force	4,594	2,881	6,307
6 to 17 years only:	45,451	42,736	48,166
In labor force:	34,764	32,051	37,477
In Armed Forces	197	75	319
Civilian:	34,567	31,861	37,273
Employed	32,257	29,804	34,710
Unemployed	2,310	1,617	3,003
Not in labor force	10,687	9,442	11,932
No own children under 18 years:	159,793	154,625	164,961
In labor force:	103,085	95,193	110,977
In Armed Forces	557	299	815
Civilian:	102,528	94,644	110,412
Employed	95,373	87,251	103,495
Unemployed	7,155	5,621	8,689
Not in labor force	56,708	52,915	60,501

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a confidence interval. The interval shown here is a 90 percent confidence interval. The stated range can be interpreted roughly as providing a 90 percent probability that the interval defined by the lower and upper bounds contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to [Labor Force Guidance](#).

Explanation of Symbols:

1. An "*" entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An "***" entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An "-1" entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An "-1" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An "****" entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An "*****" entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
