[B25116. TENURE BY HOUSEHOLD SIZE BY AGE OF HOUSEHOLDER - Universe: OCCUPIED HOUSING UNITS](#)
Data Set: [2004 American Community Survey](#)
Survey: American Community Survey

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska		
	Estimate	Lower Bound	Upper Bound
Total:	228,358	225,330	231,386
Owner occupied:	149,669	145,616	153,722
1-person household:	26,382	24,452	28,312
Householder 15 to 54 years	14,958	13,434	16,482
Householder 55 to 64 years	5,316	4,390	6,242
Householder 65 to 74 years	3,572	2,767	4,377
Householder 75 years and over	2,536	1,768	3,304
2-or-more person household:	123,287	119,282	127,292
Householder 15 to 54 years	85,665	82,719	88,611
Householder 55 to 64 years	24,214	21,435	26,993
Householder 65 to 74 years	9,498	8,433	10,563
Householder 75 years and over	3,910	2,933	4,887
Renter occupied:	78,689	74,290	83,088
1-person household:	26,317	24,206	28,428
Householder 15 to 54 years	18,859	16,710	21,008
Householder 55 to 64 years	3,742	2,576	4,908
Householder 65 to 74 years	1,911	1,323	2,499
Householder 75 years and over	1,805	1,181	2,429
2-or-more person household:	52,372	48,998	55,746
Householder 15 to 54 years	46,660	43,954	49,366
Householder 55 to 64 years	3,974	2,418	5,530
Householder 65 to 74 years	1,024	570	1,478
Householder 75 years and over	714	74	1,354

Source: U.S. Census Bureau, 2004 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a confidence interval. The interval shown here is a 90 percent confidence interval. The stated range can be interpreted roughly as providing a 90 percent probability that the interval defined by the lower and upper bounds contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Explanation of Symbols:
1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
