

P005C. SEX BY AGE (AMERICAN INDIAN AND ALASKA NATIVE ALONE) - Universe: AMERICAN INDIAN AND ALASKA NATIVE ALONE POPULATION

Data Set: [2001 Supplementary Survey Summary Tables](#)

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska	Estimate	Lower Bound	Upper Bound
Total:	86,364	78,254	94,474
Male:	43,290	39,444	47,136
Under 5 years	4,172	2,943	5,401
5 to 9 years	4,494	3,847	5,141
10 to 14 years	5,742	4,967	6,518
15 to 19 years	4,908	3,309	6,507
20 to 24 years	2,636	986	4,286
25 to 29 years	2,594	1,426	3,762
30 to 34 years	2,553	312	4,794
35 to 44 years	8,024	6,613	9,435
45 to 54 years	2,801	1,300	4,303
55 to 64 years	2,363	1,720	3,007
65 to 74 years	2,645	1,688	3,602
75 to 84 years	358	25	691
85 years and over	0	0	267
Female:	43,074	38,611	47,537
Under 5 years	3,764	2,891	4,637
5 to 9 years	3,967	2,527	5,407
10 to 14 years	4,765	3,631	5,899
15 to 19 years	3,281	1,895	4,667
20 to 24 years	2,111	654	3,568
25 to 29 years	3,658	2,594	4,722
30 to 34 years	3,685	2,296	5,074
35 to 44 years	8,654	6,464	10,844
45 to 54 years	3,731	2,416	5,046
55 to 64 years	3,697	3,214	4,180
65 to 74 years	874	485	1,263
75 to 84 years	570	0	1,202
85 years and over	317	0	733

Notes

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
