

P026. FAMILY TYPE BY PRESENCE AND AGE OF OWN CHILDREN UNDER 18 YEARS BY AGE OF OWN CHILDREN - Universe: FAMILIES

Data Set: [2001 Supplementary Survey Summary Tables](#)

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska	Estimate	Lower Bound	Upper Bound
Total:	152,316	145,865	158,768
Married-couple family:	113,635	108,391	118,879
With own children under 18 years:	59,947	53,796	66,098
Under 6 years only	14,222	11,463	16,981
Under 6 years and 6 to 17 years	13,293	11,914	14,672
6 to 17 years only	32,432	28,827	36,037
No own children under 18 years	53,688	50,845	56,531
Other family:	38,681	35,028	42,334
Male householder, no wife present:	12,707	10,874	14,540
With own children under 18 years:	7,896	6,705	9,087
Under 6 years only	1,209	676	1,742
Under 6 years and 6 to 17 years	1,214	610	1,818
6 to 17 years only	5,473	4,351	6,595
No own children under 18 years	4,811	3,549	6,073
Female householder, no husband present:	25,974	23,336	28,612
With own children under 18 years:	19,408	17,230	21,586
Under 6 years only	4,591	3,123	6,060
Under 6 years and 6 to 17 years	3,266	2,279	4,253
6 to 17 years only	11,551	9,394	13,708
No own children under 18 years	6,566	5,508	7,624

Notes

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
