

[P028. OWN CHILDREN UNDER 18 YEARS BY FAMILY TYPE AND AGE - Universe: OWN CHILDREN UNDER 18 YEARS](#)

Data Set: [2001 Supplementary Survey Summary Tables](#)

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska	Estimate	Lower Bound	Upper Bound
Total:	173,994	170,267	177,721
In married-couple families:	125,628	120,340	130,916
Under 3 years	20,507	18,672	22,342
3 and 4 years	13,429	10,622	16,236
5 years	6,427	5,231	7,623
6 to 11 years	42,461	40,103	44,819
12 to 17 years	42,804	39,750	45,858
In other families:	48,366	44,022	52,710
Male householder, no wife present:	12,855	10,824	14,886
Under 3 years	2,419	1,432	3,406
3 and 4 years	817	314	1,320
5 years	563	0	1,235
6 to 11 years	4,444	3,243	5,645
12 to 17 years	4,612	3,244	5,980
Female householder, no husband present:	35,511	31,467	39,555
Under 3 years	4,042	2,970	5,115
3 and 4 years	3,984	2,900	5,068
5 years	2,014	1,234	2,794
6 to 11 years	12,498	10,459	14,537
12 to 17 years	12,973	10,845	15,102

Notes

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
