P031. SEX BY MARITAL STATUS FOR THE POPULATION 15 YEARS AND OVER - Universe: POPULATION 15 YEARS AND OVER
Data Set: 2001 Supplementary Survey Summary Tables

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Alaska	Estimate	Lower Bound	Upper Bound
Total:	457,329	455,799	458,859
Male:	234,282	232,840	235,724
Never married	74,283	68,709	79,857
Now married:	130,197	124,340	136,055
Married, spouse present	119,925	114,035	125,816
Married, spouse absent:	10,272	8,851	11,693
Separated	4,270	3,358	5,182
Other	6,002	4,571	7,433
Widowed	4,103	3,092	5,114
Divorced	25,699	23,003	28,395
Female:	223,047	222,186	223,908
Never married	52,931	49,681	56,182
Now married:	127,989	123,547	132,431
Married, spouse present	117,302	112,675	121,929
Married, spouse absent:	10,687	8,483	12,891
Separated	5,089	3,993	6,185
Other	5,598	3,984	7,212
Widowed	11,911	10,132	13,690
Divorced	30,216	26,952	33,480

Notes

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
