

P031C. SEX BY MARITAL STATUS FOR THE POPULATION 15 YEARS AND OVER (AMERICAN INDIAN AND ALASKA NATIVE ALONE) - Universe: AMERICAN INDIAN AND ALASKA NATIVE ALONE POPULATION 15 YEARS AND OVER

Data Set: [2001 Supplementary Survey Summary Tables](#)

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska	Estimate	Lower Bound	Upper Bound
Total:	59,460	55,102	63,818
Male:	28,882	26,310	31,454
Never married	14,980	11,111	18,849
Now married:	10,745	8,557	12,933
Married, spouse present	9,392	7,455	11,329
Married, spouse absent:	1,353	917	1,789
Separated	1,159	753	1,565
Other	194	37	351
Widowed	1,260	567	1,953
Divorced	1,897	1,140	2,654
Female:	30,578	28,491	32,665
Never married	9,504	6,963	12,045
Now married:	15,310	13,974	16,647
Married, spouse present	13,497	11,657	15,337
Married, spouse absent:	1,813	391	3,235
Separated	525	0	1,421
Other	1,288	316	2,260
Widowed	1,832	773	2,891
Divorced	3,932	1,964	5,900

Notes

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
