

P034. LANGUAGE SPOKEN AT HOME FOR THE POPULATION 5 YEARS AND OVER - Universe: POPULATION 5 YEARS AND OVER

Data Set: 2001 Supplementary Survey Summary Tables

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology

Alaska	Estimate	Lower Bound	Upper Bound
Total:	566,951	565,735	568,167
Speak only English	492,896	476,990	508,802
Spanish or Spanish Creole	16,765	14,401	19,129
French (incl. Patois, Cajun)	1,834	1,063	2,605
French Creole	35	0	94
Italian	400	45	755
Portuguese or Portuguese Creole	263	0	583
German	3,688	2,380	4,996
Yiddish	194	0	448
Other West Germanic languages	313	120	506
Scandinavian languages	1,141	151	2,131
Greek	430	22	838
Russian	2,524	1,024	4,024
Polish	369	74	664
Serbo-Croatian	270	0	613
Other Slavic languages	375	0	863
Armenian	0	0	267
Persian	0	0	267
Gujarathi	208	0	556
Hindi	0	0	267
Urdu	44	0	122
Other Indic languages	146	0	397
Other Indo-European languages	600	0	1,303
Chinese	1,228	469	1,987
Japanese	1,864	1,125	2,603
Korean	3,554	2,353	4,755
Mon-Khmer, Cambodian	28	0	76
Miao, Hmong	1,023	0	2,396
Thai	696	0	1,615
Laotian	1,390	685	2,095
Vietnamese	633	148	1,118
Other Asian languages	1,000	56	1,944
Tagalog	5,816	4,385	7,247
Other Pacific Island languages	1,886	1,299	2,473
Navajo	0	0	267
Other Native North American languages	24,366	10,003	38,729
Hungarian	90	0	204
Arabic	132	21	243
Hebrew	131	0	349
African languages	380	0	796
Other and unspecified languages	239	0	478

Notes

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

- 1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
- 2. An *** entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.

 3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
- 4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
- 4. An 'I following a median estimate means the median falls in the lowest interval of an open-ended distribution.

 5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

 6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

 7. An '***** entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
