P069. HOUSEHOLD INCOME IN THE PAST 12 MONTHS (IN 2001 INFLATION-ADJUSTED DOLLARS) - Universe: HOUSEHOLDS
Data Set: 2001 Supplementary Survey Summary Tables

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Alaska	Estimate	Lower Bound	Upper Bound
Total:	220,110	217,508	222,712
Less than $10,000	8,859	7,557	10,161
$10,000 to $14,999	9,712	8,387	11,037
$15,000 to $19,999	10,723	8,769	12,677
$20,000 to $24,999	11,078	9,522	12,634
$25,000 to $29,999	10,973	8,599	13,347
$30,000 to $34,999	11,460	9,802	13,118
$35,000 to $39,999	9,902	8,409	11,395
$40,000 to $44,999	12,345	10,738	13,952
$45,000 to $49,999	9,653	8,277	11,029
$50,000 to $59,999	25,119	22,377	27,861
$60,000 to $74,999	28,848	26,444	31,252
$75,000 to $99,999	32,479	29,530	35,428
$100,000 to $124,999	18,137	16,164	20,110
$125,000 to $149,999	10,037	8,705	11,369
$150,000 to $199,999	7,066	5,794	8,338
$200,000 or more	3,719	3,036	4,402

Notes

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

The number of householders does not necessarily equal the number of households because of differences in the weighting schemes for the population and occupied housing units.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
