

**P105. AGGREGATE FAMILY INCOME IN THE PAST 12 MONTHS (IN 2001 INFLATION-ADJUSTED DOLLARS) BY FAMILY TYPE BY PRESENCE OF OWN CHILDREN UNDER 18 YEARS**

- Universe: FAMILIES

Data Set: [2001 Supplementary Survey Summary Tables](#)

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska	Estimate	Lower Bound	Upper Bound
Aggregate family income in the past 12 months (in 2001 inflation-adjusted dollars):	11,136,907,310	10,610,590,858	11,663,223,762
Married-couple family:	9,432,437,472	8,994,383,246	9,870,491,699
With own children under 18 years	4,889,147,546	4,405,963,120	5,372,331,972
No own children under 18 years	4,543,289,926	4,255,592,590	4,830,987,262
Other family:	1,704,469,838	1,482,967,030	1,925,972,646
Male householder, no wife present:	766,130,818	629,697,639	902,563,997
With own children under 18 years	424,741,920	353,611,869	495,871,971
No own children under 18 years	341,388,898	214,042,454	468,735,342
Female householder, no husband present:	938,339,020	817,110,367	1,059,567,673
With own children under 18 years	595,276,219	497,752,916	692,799,522
No own children under 18 years	343,062,801	280,035,038	406,090,564

**Notes**

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '\*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '\*\*\*' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '\*\*\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '\*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
