

## H007. TENURE BY RACE OF HOUSEHOLDER - Universe: OCCUPIED HOUSING UNITS

Data Set: [2001 Supplementary Survey Summary Tables](#)

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska	Estimate	Lower Bound	Upper Bound
Total:	220,110	217,508	222,712
Owner occupied:	139,461	135,254	143,669
Householder who is White alone	110,820	107,335	114,305
Householder who is Black or African American alone	1,907	1,419	2,395
Householder who is American Indian and Alaska Native alone	14,578	13,111	16,045
Householder who is Asian alone	3,295	2,505	4,085
Householder who is Native Hawaiian and Other Pacific Islander alone	340	76	604
Householder who is Some other race alone	1,034	557	1,511
Householder who is Two or more races:	7,487	6,220	8,754
Householder who is Two races including Some other race	386	44	728
Householder who is Two races excluding Some other race, and three or more races	7,101	5,895	8,307
Renter occupied:	80,649	77,210	84,088
Householder who is White alone	55,573	52,502	58,644
Householder who is Black or African American alone	4,776	4,085	5,467
Householder who is American Indian and Alaska Native alone	10,439	8,979	11,899
Householder who is Asian alone	3,158	2,104	4,212
Householder who is Native Hawaiian and Other Pacific Islander alone	759	238	1,280
Householder who is Some other race alone	1,584	1,073	2,096
Householder who is Two or more races:	4,360	3,431	5,289
Householder who is Two races including Some other race	564	180	948
Householder who is Two races excluding Some other race, and three or more races	3,796	2,902	4,690

### Notes

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '\*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '\*\*\*' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '\*\*\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '\*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
