

H023. TENURE BY ROOMS - Universe: OCCUPIED HOUSING UNITS

Data Set: [2001 Supplementary Survey Summary Tables](#)

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska	Estimate	Lower Bound	Upper Bound
Total:	220,110	217,508	222,712
Owner occupied:	139,461	135,254	143,669
1 room	1,536	582	2,490
2 rooms	3,967	2,741	5,193
3 rooms	10,447	8,695	12,199
4 rooms	23,345	20,759	25,931
5 rooms	29,815	27,670	31,960
6 rooms	25,938	21,559	30,317
7 rooms	20,961	19,007	22,915
8 rooms	12,702	11,130	14,274
9 or more rooms	10,750	9,052	12,448
Renter occupied:	80,649	77,210	84,088
1 room	3,931	2,571	5,291
2 rooms	8,038	6,744	9,332
3 rooms	14,431	12,642	16,220
4 rooms	24,449	22,132	26,766
5 rooms	16,589	14,454	18,724
6 rooms	7,566	6,315	8,817
7 rooms	3,503	2,607	4,399
8 rooms	1,017	661	1,373
9 or more rooms	1,125	749	1,501

Notes

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '**' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '***' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '****' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
