

**PCT010. FAMILY TYPE BY AGE OF HOUSEHOLDER - Universe: FAMILIES**

Data Set: [2001 Supplementary Survey Summary Tables](#)

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska	Estimate	Lower Bound	Upper Bound
Total:	152,316	145,865	158,768
Married-couple family:	113,635	108,391	118,879
Householder 15 to 24 years	5,046	3,675	6,417
Householder 25 to 34 years	21,527	19,874	23,180
Householder 35 to 44 years	29,928	26,892	32,964
Householder 45 to 54 years	32,320	30,596	34,044
Householder 55 to 59 years	9,630	8,661	10,599
Householder 60 to 64 years	6,420	5,481	7,359
Householder 65 to 74 years	6,496	5,737	7,255
Householder 75 years and over	2,268	1,671	2,865
Other family:	38,681	35,028	42,334
Male householder, no wife present:	12,707	10,874	14,540
Householder 15 to 24 years	788	361	1,215
Householder 25 to 34 years	1,976	1,296	2,656
Householder 35 to 44 years	5,187	3,996	6,378
Householder 45 to 54 years	2,903	2,090	3,716
Householder 55 to 59 years	500	167	833
Householder 60 to 64 years	614	206	1,022
Householder 65 to 74 years	662	0	1,533
Householder 75 years and over	77	0	171
Female householder, no husband present:	25,974	23,336	28,612
Householder 15 to 24 years	2,757	1,698	3,816
Householder 25 to 34 years	6,901	5,627	8,175
Householder 35 to 44 years	7,761	6,004	9,518
Householder 45 to 54 years	5,259	4,104	6,414
Householder 55 to 59 years	1,491	798	2,184
Householder 60 to 64 years	556	167	945
Householder 65 to 74 years	576	271	881
Householder 75 years and over	673	195	1,152

**Notes**

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '\*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '\*\*\*' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '\*\*\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '\*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
