

**PCT029. RESIDENCE 1 YEAR AGO FOR THE POPULATION 1 YEAR AND OVER--STATE, COUNTY AND PLACE LEVEL - Universe: POPULATION 1 YEAR AND OVER**  
Data Set: 2001 Supplementary Survey Summary Tables

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska	Estimate	Lower Bound	Upper Bound
Total:	606,618	605,476	607,760
Same house 1 year ago	487,813	479,759	495,867
Different house in United States 1 year ago:	115,759	107,776	123,742
Same city or town:	50,937	44,043	57,831
Same county	50,937	44,043	57,831
Different county (same state)	0	0	267
Elsewhere:	64,822	58,506	71,138
Same county	15,579	12,307	18,851
Different county:	49,243	44,085	54,401
Same state	16,984	13,374	20,594
Different state:	32,259	28,030	36,488
Northeast	2,591	1,240	3,942
Midwest	4,023	2,413	5,633
South	12,437	9,403	15,471
West	13,208	10,705	15,711
Abroad 1 year ago:	3,046	1,733	4,359
Puerto Rico	0	0	267
U.S. Island Areas	369	0	976
Foreign country	2,677	1,572	3,783

**Notes**

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '\*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '\*\*\*' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '\*\*\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '\*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
