[PCT035C. SEX BY EDUCATIONAL ATTAINMENT FOR THE POPULATION 25 YEARS AND OVER (AMERICAN INDIAN AND ALASKA NATIVE ALONE) - Universe: AMERICAN INDIAN AND ALASKA NATIVE ALONE POPULATION 25 YEARS AND OVER](#)
Data Set: [2001 Supplementary Survey Summary Tables](#)

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska	Estimate	Lower Bound	Upper Bound
Total:	46,524	42,843	50,205
Male:	21,338	19,422	23,254
Less than 9th grade	2,182	634	3,730
9th to 12th grade, no diploma	4,204	2,425	5,983
High school graduate (includes equivalency)	7,416	5,220	9,612
Some college, no degree	4,988	3,940	6,036
Associate degree	671	0	1,499
Bachelor's degree	1,628	699	2,557
Graduate degree	249	59	439
Female:	25,186	23,188	27,184
Less than 9th grade	3,095	722	5,468
9th to 12th grade, no diploma	3,739	2,843	4,635
High school graduate (includes equivalency)	8,347	6,078	10,616
Some college, no degree	4,960	2,802	7,118
Associate degree	2,868	350	5,386
Bachelor's degree	1,749	1,079	2,419
Graduate degree	428	123	733

Notes

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
