

HCT010. TENURE BY POVERTY STATUS OF HOUSEHOLDER IN THE PAST 12 MONTHS BY YEAR STRUCTURE BUILT - Universe: OCCUPIED HOUSING UNITS

Data Set: 2001 Supplementary Survey Summary Tables

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Alaska	Estimate	Lower Bound	Upper Bound
Total:	220,110	217,508	222,712
Owner occupied:	139,461	135,254	143,669
Income in the past 12 months below poverty level:	5,977	4,929	7,025
Built 1950 or later	5,765	4,666	6,864
Built 1940 to 1949	177	0	517
Built 1939 or earlier	35	0	94
Income in the past 12 months at or above poverty level:	133,484	129,374	137,594
Built 1950 or later	127,458	122,191	132,725
Built 1940 to 1949	1,878	1,033	2,723
Built 1939 or earlier	4,148	3,171	5,125
Renter occupied:	80,649	77,210	84,088
Income in the past 12 months below poverty level:	8,807	7,310	10,304
Built 1950 or later	8,570	7,037	10,103
Built 1940 to 1949	97	0	255
Built 1939 or earlier	140	0	358
Income in the past 12 months at or above poverty level:	71,842	67,892	75,792
Built 1950 or later	66,408	62,560	70,256
Built 1940 to 1949	3,178	2,424	3,932
Built 1939 or earlier	2,256	784	3,728

Notes

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

- 1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
- 2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
- 3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.

- A. An '-following a median estimate means the median falls in the lowest interval of an open-ended distribution.
 An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
 An '**-' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. open-ended distribution. A statistical test is not appropriate.
 7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
