

**HCT012. TENURE BY POVERTY STATUS OF HOUSEHOLDER IN THE PAST 12 MONTHS BY  
RECEIPT OF PUBLIC ASSISTANCE INCOME IN THE PAST 12 MONTHS - Universe: OCCUPIED  
HOUSING UNITS**

Data Set: [2001 Supplementary Survey Summary Tables](#)

NOTE: Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska	Estimate	Lower Bound	Upper Bound
Total:	220,110	217,508	222,712
Owner occupied:	139,461	135,254	143,669
Income in the past 12 months below poverty level:	5,977	4,929	7,025
With public assistance income	505	0	1,061
No public assistance income	5,472	4,279	6,665
Income in the past 12 months at or above poverty level:	133,484	129,374	137,594
With public assistance income	3,235	2,205	4,265
No public assistance income	130,249	125,637	134,861
Renter occupied:	80,649	77,210	84,088
Income in the past 12 months below poverty level:	8,807	7,310	10,304
With public assistance income	2,075	1,432	2,719
No public assistance income	6,732	5,514	7,950
Income in the past 12 months at or above poverty level:	71,842	67,892	75,792
With public assistance income	7,238	5,609	8,867
No public assistance income	64,604	59,844	69,364

**Notes**

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '\*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '\*\*\*' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '\*\*\*\*' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '\*\*\*\*\*' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
