HCT013. TENURE BY POVERTY STATUS OF HOUSEHOLDER IN THE PAST 12 MONTHS BY RECEIPT OF SOCIAL SECURITY INCOME IN THE PAST 12 MONTHS - Universe: OCCUPIED HOUSING UNITS
Data Set: 2001 Supplementary Survey Summary Tables

NOTE. Data are limited to the household population and exclude the population living in institutions, college dormitories, and other group quarters. For information on confidentiality protection, sampling error, nonsampling error, and definitions, see Survey Methodology.

Alaska	Estimate	Lower Bound	Upper Bound
Total:	220,110	217,508	222,712
Owner occupied:	139,461	135,254	143,669
Income in the past 12 months below poverty level:	5,977	4,929	7,025
With Social Security income	787	439	1,135
No Social Security income	5,190	4,258	6,122
Income in the past 12 months at or above poverty level:	133,484	129,374	137,594
With Social Security income	26,227	24,244	28,210
No Social Security income	107,257	103,533	110,981
Renter occupied:	80,649	77,210	84,088
Income in the past 12 months below poverty level:	8,807	7,310	10,304
With Social Security income	624	317	931
No Social Security income	8,183	6,675	9,691
Income in the past 12 months at or above poverty level:	71,842	67,892	75,792
With Social Security income	7,202	5,996	8,408
No Social Security income	64,640	61,050	68,230

Notes

The 2001 Supplementary Survey universe is limited to the household population and excludes the population living in institutions, college dormitories, and other group quarters. Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate is represented through the use of a confidence interval. The confidence interval computed here is a 90 percent confidence interval and can be interpreted roughly as providing 90 percent certainty that the true number falls between the lower and upper bounds.

Click on the table title to access subject characteristics and code lists related to this table.

1. An '*' entry in the lower and upper bound columns indicates that too few sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
2. An '**' entry in the lower and upper bound columns indicates that no sample observations were available to compute a standard error and thus the lower and upper bounds. A statistical test is not appropriate.
3. An '-' entry in the estimate column indicates that no sample observations were available to compute an estimate.
4. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
5. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
6. An '***' entry in the lower and upper bound columns indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
7. An '*****' entry in the lower and upper bound columns indicates that the estimate is controlled. A statistical test is not appropriate.
